

Deacon Ridge Condominiums

Door Access Intercom Quick Reference Guide

Each building will have a new front door panel and each condo will be fitted with the indoor access panel shown below.

Front Door Panel

Inside Panel

To contact a unit, the visitor must press the button of the unit on the door panel. Selecting a unit will play a message “call in progress” and illuminate a LED on the screen. When a unit’s button is pressed, the inside panel will display an image of the visitor.

The icons used on the indoor panel are:

	<p>This button will be illuminated on the in-side panel and allows the resident to talk to the person outside the front door. Calls are limited to 90 Seconds. If a call is not answered within 45 seconds the call is cancelled.</p> <p>Pressing this button a second time will allow the resident to cancel the conversation.</p>
	<p>Pressing this button will unlock the front door of the building.</p>

NOTE: The new intercom system DOES NOT interface with the entry gates.
